### Odine Leads "Virtualization" Category in 2023 Top 500 ICT Companies Türkiye Research!

Odine proudly leads the virtualization category and ranks among the top 15 ICT companies in Türkiye in multiple categories on the 2023 Top 500 ICT Companies Türkiye listing for the fifth consecutive year.

The research, which ranks Türkiye's largest 500 IT companies, culminated in a prestigious awards ceremony held on 2024 August 7th in İstanbul. Odine's Vice Chairman of the Board, Firat Kerim Ersoy, accepted the award on behalf of the company.

This esteemed recognition underscores Odine's dedication to building trust and credibility within our partnerships, and it emphasizes our continuous efforts in developing resilient, software-defined, and cloud-based networks of the future through virtualization.

We extend our heartfelt thanks to our customers and partners for their continuing trust and support, which have been instrumental in achieving this success.

### 2023 Ordinary General Assembly Meeting

On August 14, 2024, Odine convened its 2023 Ordinary General Assembly Meeting, during which significant changes to the Board of Directors were discussed and implemented, alongside the formal presentation of both the 2023 Board of Directors Activity Report and the Independent Audit Report. These reports provided a comprehensive review of the company's overall performance and financial results throughout the previous fiscal year, serving as the foundation for a detailed discussion of Odine's financial statements. Ultimately, the meeting culminated in the formal approval of the company's financial performance for 2023, marking a key milestone in Odine's ongoing corporate governance and strategic leadership efforts.

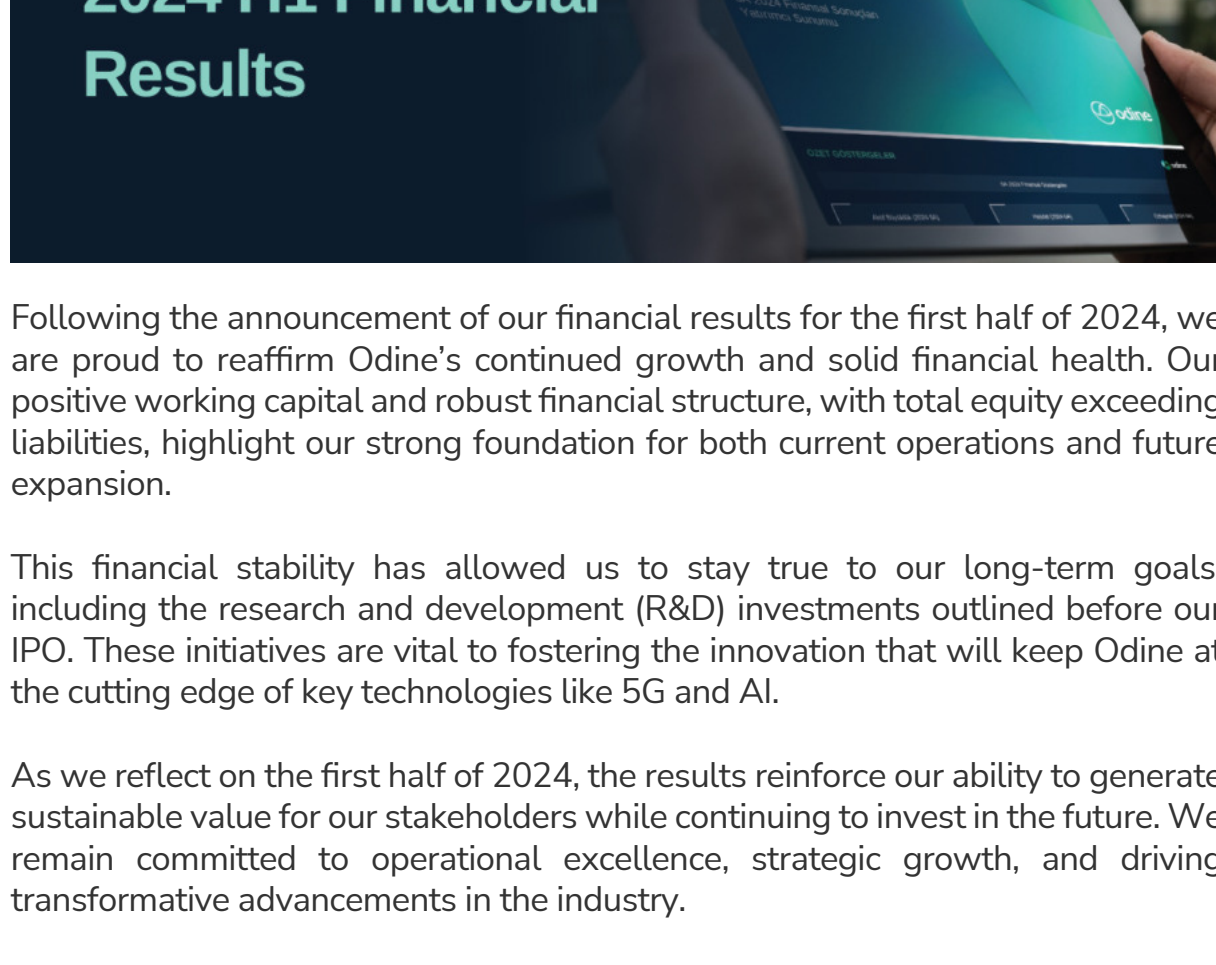

During the meeting, it was resolved that Alper Tunga Burak would continue in his role as Chairman of the Board, with Firat Kerim Ersoy also retaining his position as Vice Chairman of the Board.

In addition to the continuation of the current leadership, Tuncer Köklü and Kerim Pertev Zapsu were newly appointed as Board Members. Furthermore, Müge Tuna and Gökhan Gürçan were appointed as Independent Board Members, adding valuable perspectives to the governance of the company.

These new appointments bring a wealth of expertise and fresh perspectives that will enhance Odine's commitment to innovation, operational excellence, and strategic growth. With the addition of diverse backgrounds and industry expertise to the Board, Odine is well-positioned to strengthen its leadership in technological innovation and maintain its competitive edge on a global scale.

### Odine Reflects on Strong Financial Performance for the First Half of 2024

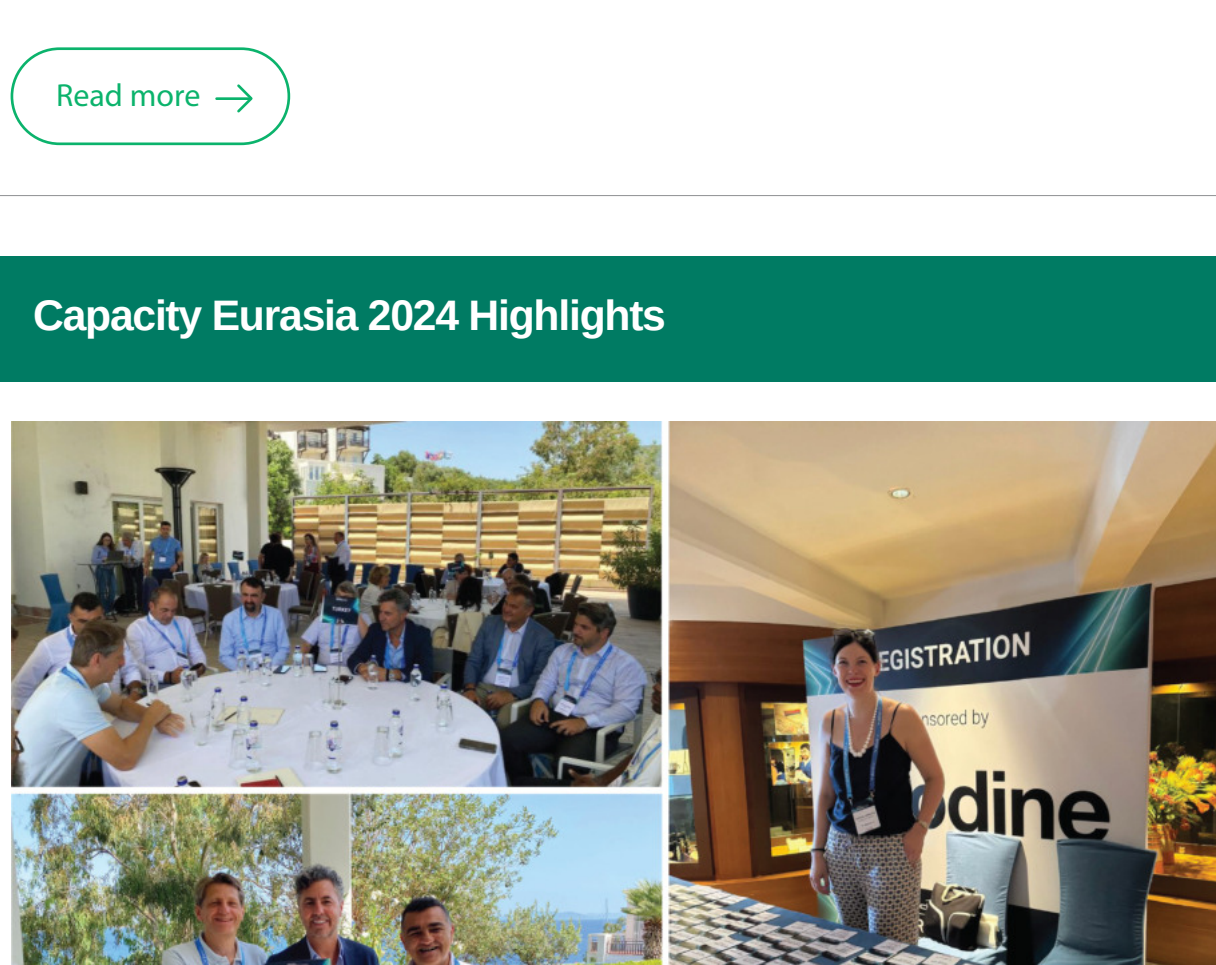

Following the announcement of our financial results for the first half of 2024, we are proud to reaffirm Odine's continued growth and solid financial edge. Our positive working capital and robust financial structure, with total equity exceeding liabilities, highlight our strong foundation for both current operations and future expansion.

This financial stability has allowed us to stay true to our long-term goals, including the research and development (R&D) investments outlined before our IPO. These initiatives are vital to fostering the innovation that will keep Odine at the cutting edge of key technologies like 5G and AI.

As we reflect on the first half of 2024, the results reinforce our ability to generate sustainable value for our stakeholders while continuing to invest in the future. We remain committed to operational excellence, strategic growth, and driving transformative advancements in the industry.

### Capacity Eurasia 2024 Highlights

Odine is pleased to have participated in Capacity Eurasia 2024, held in Bodrum, Türkiye on July 2-3. This networking-led event brought together key players from the connectivity market in Central and Eastern Europe (CEE), the Commonwealth of Independent States (CIS), Türkiye, and the Caucasus region. Industry leaders from network connectivity and infrastructure, IXPs, cloud providers, data centers, as well as voice and SMS enablers came together to explore new opportunities and collaborations.

On the first day of the event, Odine's COO, Tarkan Alagöz, took part in the Country Roundtable Spotlight session, where he shared his valuable insights on the evolving technology landscape. The roundtable was well-attended, offering a platform for in-depth discussions on the future of the industry.

We extend our heartfelt thanks to all our visitors. As we move forward, we eagerly look forward to reconnecting with you at the next event.

### BATIC 2024 Highlights

BATIC 2024, hosted by Telin from August 27-30 in Bali, provided a unique platform for technology professionals to connect, exchange ideas, and contribute to the ongoing development of the industry. This year's discussions centered around the need for companies to innovate and transform their business strategies, focusing on long-term sustainability, not just in terms of commercial success, but also by considering their social and environmental impact for future generations.

The event delivered valuable insights and fostered meaningful conversations about the future of the industry.
